### 2006-07 fiscal year contribution rates begin July 1

Contribution rates for the ASRS defined benefit plan are scheduled to increase for the fiscal year that begins July 1, 2006.

Under legislation passed last year, contribution rates are to be reviewed and adjusted annually to ensure the pension plan, health insurance premium benefit program and long term disability plan remain fiscally sound. There are two separate rates – the pension & health insurance benefit plan, which is a pre-tax contribution, and the long term disability program, which is a post-tax contribution. The LTD program rate will remain at this year's rate – 0.5 percent. The pension and health insurance benefit plan rate will increase from the current rate of 6.9 percent to 8.6 percent.

**The combined contribution rate, paid by both the employee and employer, will increase from the current 7.4 percent to 9.1 percent beginning July 1, 2006.**

Contribution rates have been on an upward trend over the past three years due to several factors, primarily: past increases in the benefit package, low mid-term earnings on the fund, historically low contribution rates that were supplemented by excess earnings, and changing member demographics related to increased life expectancy.

	ASRS Contribution Rate Fiscal 2006-07 (Effective July 1, 2006)		
	Retirement Pension & Health Insurance Benefit	Long Term Disability Income Plan	Total
<b>Employee</b>	8.60%	0.50%	<b>9.10%</b>
<b>Employer</b>	8.60%	0.50%	<b>9.10%</b>

In the meantime, you may view a summary of these bills and track their progress by referring to the ASRS Bill Tracker, which is updated weekly and posted on our website at [www.azasrs.gov](http://www.azasrs.gov)

### Enrollment Forms

The ASRS is in the process of updating member-records and is asking your support to help ensure they are accurate.

The majority of information contained in each record comes from the member's initial enrollment form. The enrollment form is vital because it ensures we have accurate and complete information for our members, triggers the creation of member accounts and provides our actuary with critical information needed to make actuarial assumptions that affect our contribution rates.

Frequently, the ASRS receives enrollment forms that are incomplete and/or have inaccurate information. The following is a list of the most common errors that we see:

- Wrong Social Security number
- Enrollment is filled out by employee only, without the required signature from the employer representative
- No address
- No date of birth for member
- No gender for member
- No designated beneficiary
- Beneficiary information incomplete
- Incorrect names
- Missing enrollment form. Account is set-up from employer contribution report which does not provide us with all the information we need to serve our members

In order for the ASRS to improve the integrity of our data, and better serve our members, incomplete forms are returned to the employer for correction. The form will be accompanied by a letter asking you to complete and return the enrollment form to the ASRS.

If you are unsure of how to fill out the enrollment form, please contact the ASRS Employer Relations division or refer to the sample contained in the Employer Manual.

The ASRS appreciates your efforts to help us keep accurate records of your employees!
